Claims

1. An oral pharmaceutical composition comprising:
   (a) from 200 mg to 800 mg of a compound that is (-)-halofenate, (-)-halofenic acid, or a pharmaceutically acceptable salt thereof, containing at least 90% by weight (-)-enantiomer, and
   (b) from 0.3 mg to 1.2 mg of colchicine.

2. The oral pharmaceutical composition as claimed in claim 1 where the compound is (-)-halofenate.

3. The oral pharmaceutical composition as claimed in claim 1 where the compound is (-)-halofenic acid or a pharmaceutically acceptable salt thereof.

4. The oral pharmaceutical composition as claimed in claim 1 comprising 600 mg of (-)-halofenate and 0.6 mg of colchicine.

5. The oral pharmaceutical composition as claimed in any one of claims 1 to 4 for use in treating a gout flare experienced by a subject.

6. The oral pharmaceutical composition as claimed in any one of claims 1 to 4 for use in decreasing the number, frequency, duration, or intensity of gout flares experienced by a subject.

7. The oral pharmaceutical composition as claimed in any one of the claims 1 to 4 for use in treating hyperuricemia in a subject with gout.
