【CLAIMS】

【Claim 1】

A peptide comprising an amino acid sequence set forth in SEQ ID NO: 1 for use in therapy.

【Claim 2】

Use of a pharmaceutical composition comprising a peptide comprising an amino acid sequence set forth in SEQ ID NO: 1 in the manufacture of a medicament for muscle relaxation.

【Claim 3】

The use of claim 2, wherein the pharmaceutical composition comprises 0.001% by weight to 60% by weight of the peptide, based on 100% by weight of the pharmaceutical composition.

【Claim 4】

Use of a pharmaceutical composition comprising a peptide comprising an amino acid sequence set forth in SEQ ID NO: 1 in the manufacture of a medicament for preventing or treating a neuromuscular disease.

【Claim 5】

The use of claim 4, wherein the neuromuscular disease comprises any one selected from the group consisting of eyelid twitching, torticollis, cervical dystonia, tonic blepharospasm, axillary hyperhidrosis, anal fissure, colpospasm, achalasia, a headache disorder, idiopathic and neurogenic detrusor overactivity, focal dystonia, temporomandibular joint pain/disorder, diabetic neuropathy, vocal cord dysfunction, strabismus, chronic neuropathy, facial muscular hypertrophy, detrusor-sphincter dyssynergia, and benign

prostatic hyperplasia.

【Claim 6】

The use of claim 2, wherein the peptide suppresses secretion of acetylcholine.

【Claim 7】

Use of a composition comprising a peptide comprising an amino acid sequence set forth in SEQ ID NO: 1 in the manufacture of a medicament for improving a skin condition.

【Claim 8】

The use of claim 7, wherein the skin condition comprises: skin wrinkles, sebum production, and acne.

【Claim 9】

The use of claim 7, wherein the composition comprises 0.001% by weight to 60% by weight of the peptide, based on 100% by weight of the composition.

【Claim 10】

The use of claim 7, wherein the peptide increases expression of collagen.
