(54) Title: MULTIFUNTION TOOLING FIXTURE ASSEMBLY FOR USE IN A COATING RELATED OPERATIONS

FIG. 1

(57) Abstract: A modular, rotisserie type multifunctional tooling fixture assembly is disclosed. The disclosed tooling fixture assembly comprises a positioning ring having a plurality of anchor members configured or adapted to retain a plurality of workpieces to be processed, and a retaining base defining a plurality of retaining members configured to be in locking engagement with the anchor members of the positioning ring and retain a plurality of workpieces in a fixed orientation. The tooling fixture assembly has utility in various coating related processes, including coating and grit blasting operations.
