100
102
Contacting touch sensitive panel with appendage
104
Is more than one appendage in contact with panel?
Yes
No
106
More than two appendages in contact with panel?
Yes
No
108
No resultant action
110
Are two appendages side-by-side?
Yes
No
111
Appendages move towards/away each other?
Yes
No
112
Are two appendages moving together in single direction?
Yes
No
113
Enters second parameter control mode
114
Enters fine-tuning first parameter mode
115
Appendages moving apart
118
Is contact position at indicated visual location?
Yes
No
120
No change in first parameter
103
Appendage moving above a predetermined rate?
Yes
No
107
Appendage moving above a predetermined rate?
Yes
No
109
First parameter is either reduced to zero level or increased to maximum level
122
Control of first parameter with primary increment/decrement
124
Change of first parameter reflected in visual indicator
