CARBON PURIFICATION METHOD AND CARBON PRODUCT

ABSTRACT

A carbon purification method (10) and a carbon product are provided. The carbon purification method (10) includes providing (12) a carbon product having a catalyst content and/or impurities, performing (14) a hydrothermal acid digestion operation on the carbon product in an acid to dissolve the catalyst content and/or the impurities, and performing (16) a filtering operation to separate the dissolved catalyst content and/or the dissolved impurities from the carbon product.
