(54) Title: METHOD FOR CONTROL OF ADAPTATION OF FEEDBACK SUPPRESSION IN A HEARING AID, AND A HEARING AID

Fig. 2

(57) Abstract: A method for controlling adaptation of a feedback suppression filter (104) in a hearing aid (100) comprises the step of suspending the adaptation of the feedback suppression filter (104) when the level of a hearing aid reference signal is below a predetermined threshold. The invention further provides a hearing aid with a feedback suppression filter and with means for suspending adaptation of the feedback suppression filter.
