CLAIMS

1. An ophthalmic composition comprising plazomicin or its pharmaceutically acceptable salt thereof.

2. The composition of claim 1, wherein the composition comprises about 0.01% w/v to about 1.00% w/v plazomicin or its pharmaceutically acceptable salt thereof.

3. The composition of claim 1, wherein the composition comprises plazomicin sulfate.

4. The composition of claim 1, wherein the composition further comprises at least one excipient selected from buffering agent, tonicity adjusting agent, viscosity modifying agent, preservative, chelating agent and pH adjusting agent.

5. The composition of claim 1, wherein the composition further comprises about 0.01% w/v to about 1.5% w/v buffering agent.

6. The composition of claim 1, wherein the composition further comprises about 0.01% w/v to about 5% w/v buffering agent.

7. The composition of claim 1, wherein the composition further comprises:

(i) about 0.01% w/v to about 1.5% w/v tonicity adjusting agent; or

(ii) about 0.1% w/v to about 6% w/v tonicity adjusting agent.

8. The composition of claim 1, wherein the composition further comprises:

(i) about 0.01% w/v to about 3% w/v preservative; or

(ii) about 0.00010% w/v to about 1% w/v preservative.

9. The composition of claim 1, wherein the composition further comprises about 0.01% w/v to about 5% w/v viscosity modifying agent.

10. The composition of claim 1, wherein the composition further comprises about 0.001% w/v to about 1% w/v chelating agent.

11. The composition of claim 1, wherein the composition further comprises a pH adjusting agent.

12. The composition of claim 1, wherein the composition is an aqueous composition.

13. The composition of claim 1, wherein the plazomicin or its pharmaceutically acceptable salt is in a solubilized form.

14. The composition of claim 1, wherein the composition has a pH between about 6 to about 7.

15. The composition of claim 1 for use in the treatment of ocular infections.
