BLOCK COPOLYMER

ABSTRACT

An object of the present invention is to provide a block copolymer having excellent electrical characteristics, moisture resistance, and heat resistance and having thermosetting properties. The block copolymer of the present invention comprises a block chain (A) having (a1) a repeat unit of formula (I), or (a2) a repeat unit of formula (I) and a repeat unit of formula (II), and a block chain (B) having a repeat unit of formula (III).
