(54) Title: SLIDE & DRY UNIT

(57) **Abstract:** This is a simple sliding device for laundry drying to use in the residential market. It operation uses sliding track of 'I' shape profile section with pole holders at both ends of the track. The track is supported on rollers and together holds in position by stainless steel bracket secured to building members. The SDU serves to convenient and alleviate problems related to traditional pole laundry drying and cloth line drying process in every household. Problems like placing the heavy pole of wet clothing out of the house and slotting the pole into holders for high-rise building, baby-sitting laundry of both pole and clothes-line users, to the risk of one falling while placing and retrieving the pole at high level.
