ABSTRACT

Public transport vehicle, including a device for displaying on a window

The vehicle (10) comprises at least one side bay (14) equipped with a window (16), and a device for displaying at least one item of information on the window (16). The display device comprises:

- an image projector (20), fastened to a ceiling of the vehicle, intended to emit light rays,
- a system (22) of at least one mirror (24, 26) arranged to reflect light rays emitted by the image projector (20), in the direction of the window (16).
