(54) **Title**: IMPLIED ORDER QUALITY

Figure 3A

(57) **Abstract**: Certain embodiments of the present inventions provide implied order quality. The quality may be viewed as an indication of how much an implied order and/or an aggregate quality for implied orders may be relied upon. Certain embodiments utilize various techniques for determining a quality for an implied order. Certain embodiments utilize various techniques for determining an aggregate quality for implied orders. Certain embodiments provide an indicator of the quality for an implied order and/or of the aggregate quality for implied orders. Certain embodiments filter an implied order based on a determined quality value and/or determined aggregate quality.
