GAMING APPARATUS AND SYSTEMS

ABSTRACT

An embodiment of the present invention provides a bonus scheme associated with a gaming process that is a feature event, or part thereof, which provides a plurality of feature games. With reference to the embodiment illustrated in figure 3, a gaming process is conducted at Steps S3 to S5, the outcome of which determines a gaming process win value. At Step S7 the gaming process win value is compared to a threshold value and, if the gaming process win value is less than, or equal to the threshold value, a bonus prize is awarded to the player at Step S9.
