(54) Title: MULTIPURPOSE CANTILEVER SKIDDING FRAME

FIG 4

(57) Abstract: The present subject matter provides a multipurpose cantilever skidding frame having a first frame structure (301), a second frame structure (131) and two connection beams (303) integrally forming a rigid structure to provide longitudinal and lateral movement for an exemplary cantilever (104). The present subject matter also provides a drilling rig that enables a cantilever to be moved in both longitudinal and transverse directions.
