Composition Containing Hexafluoropropene Trimer

ABSTRACT

The present invention provides a composition comprising:

a hexafluoropropene trimer represented by C_9F_{18}; and

(i) C_mF_{2m},. and/or $C_nF_{(2n-2)}$ where m is an integer of 4 to 12 except 9 and n is an integer of 4 to 12, (ii) water where a content of the water relative to a total amount of the hexafluoropropene trimer represented by C_9F_{18} regarded as 100 parts by mass is from 0.0001-0.1 parts by mass, and/or (iii) fluoride ions where a content of the fluoride ions relative to the total amount of the hexafluoropropene trimer represented by C_9F_{18} regarded as 100 parts by mass is from 0.0000001 to 5 parts by mass.
