- with international search report
- before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: METHOD FOR UPGRADING NETWORK SERVER PROGRAMMING CONDITIONS, ASSOCIATED SYSTEM AND SOFTWARE PRODUCT

(57) Abstract: The method in accordance with the invention makes it possible to replace the programming conditions of a server (s) in real time, proceeding in such a way that the process which is to be replaced (1) coexists for a certain period of time with the replacement process (1'). The duration of this operation is decided by the replaced process (1), and it is possible to determine when the transactions which are already under way in the process which is to be replaced (1) have been completed.
