CLAIMS

What is claimed is:

1. A portable carrier for reusable grocery-style bags comprising:

~~a sleeve comprising a cavity;~~

~~a dispensing port disposed along a length of the sleeve; and~~

~~a loading port disposed on a first distal end of the sleeve.~~

a flexible sleeve substantially cylindrical in shape comprising a hollow cavity;

a loading port disposed on a first distal end of the sleeve providing distal access to the cavity, the loading port comprising:

a flexible fabric,

a fabric gusset,

a cord fabric loop,

a cord loop partially disposed within the cord fabric loop with a remaining portion of the cord loop configured to serve as a carrying handle, and

a cord lock disposed around the cord loop,

wherein the loading port is configured to load crumpled reusable grocery-style bags;

a back portion closing a second distal end of the sleeve;

a dispensing port disposed along a length of the sleeve providing access to the cavity, wherein the dispensing port is configured to dispense one or more reusable grocery-style bags;

a carabiner fabric loop disposed on the sleeve; and

a carabiner attached to the carabiner fabric loop.

~~2. The portable carrier of claim 1, further comprising:~~

~~a carabiner fabric loop disposed on the sleeve; and~~

~~a carabiner attached to the carabiner fabric loop.~~

~~3.~~2. The portable carrier of claim 1, further comprising:

a fabric loop disposed on a second distal end of the sleeve.

~~4.~~3. The portable carrier of claim 1, wherein the loading port is configured to load a plurality of reusable bags into the cavity of the sleeve.

~~5.~~4. The portable carrier of claim 1, wherein the cavity of the sleeve is configured to store a plurality of reusable bags.

~~6.~~5. The portable carrier of claim 1, wherein the dispensing port is configured to provide access to one or more reusable bags from the cavity of the sleeve.

~~7. The portable carrier of claim 1, wherein the sleeve is cylindrical.~~

~~8.~~6. The portable carrier of claim 1, wherein the sleeve is polygon shaped.

~~9.~~7. The portable carrier of claim 1, wherein the sleeve comprises fabric.

~~10.~~8. The portable carrier of claim 1, wherein the sleeve comprises leather.

~~11.~~9. The portable carrier of claim 1, wherein the sleeve comprises silicone.

~~12. The portable carrier of claim 1, wherein the loading port comprises:~~

~~an opening of the first distal end of the sleeve;~~

~~a cord fabric loop;~~

~~a cord loop partially disposed within the cord fabric loop; and~~

~~a cord lock disposed around the cord loop.~~

~~13.~~10. The portable carrier of claim 1, wherein the loading port comprises:

a zippered closure to the first distal end of the sleeve.

~~14.~~11. The portable carrier of claim 1, wherein the loading port comprises:

a hook-and-loop closure to the first distal end of the sleeve.

~~15.~~12. The portable carrier of claim 1, wherein the loading port comprises:

a button closure to the first distal end of the sleeve.

~~16.~~13. The portable carrier of claim ~~12~~1, wherein the cord loop is configured to serve as a carrying handle.

~~17.~~14. The portable carrier of claim ~~12~~1, wherein the loading port further comprises:

a fabric gusset.

~~18.~~15. The portable carrier of claim 1, wherein the dispensing port comprises:

a zipper disposed along a length of the sleeve;

a slider disposed on the zipper; and

a pull tab disposed on the slider.

~~19.~~16. The portable carrier of claim 1, wherein the dispensing port comprises:

a hook-and-loop fastener disposed along a length of the sleeve.

~~20.~~17. The portable carrier of claim 1, wherein the dispensing port comprises:

a button fastener disposed along a length of the sleeve.
