

Method and Apparatus for Feeding Back Channel State Information, Storage Medium, and Electronic Device

Abstract

The embodiments of the present disclosure provide a method for feeding back channel state information and apparatus, a storage medium, and an electronic device. The method comprises: acquiring first check channel information; determining first check channel state information according to the first check channel information; and feeding back the first check channel state information. By means of the technical solution, at least the problem in the related art of how to acquire more accurate channel state information is solved.
