(54) Title: SOCKET ARRANGEMENT

Figure 6

(57) Abstract: A service outlet box (1) comprising a first pair of sockets (61a) and a second pair of sockets (61b). Each pair of sockets comprises two sockets (63) located adjacent to each other in a side-by-side relationship. The sockets (63) in the first pair (61a) and the second pair (61b) are orientated in the same direction. The first pair of sockets (61a) are staggered with respect to the second pair (61b). A cable (71) extending directly away from the plug (69) received in a socket (63) of the second pair (61b) passes between the sockets of the first pair (61a).
