Summary of Invention

Technical Problem

[0006]

~~The present invention has been made under the above-described circumstances. It is an object~~Embodiments of the present invention seek to provide a flight-plan generating apparatus capable of generating a flight plan with fewer omissions.

Solution to Problem

[0007]

One aspect of the present invention is a flight-plan generating apparatus that generates a flight plan to travel around a plurality of visit points with a round-trip airline ticket. The flight-plan generating apparatus includes: a fare product database that stores information on fare products, the fare product database storing information on a plurality of visitable points determined for each fare product, information on whether
