place a bet on a combination of numbers of the M cards.

For example, game mode “combination of playing cards” will be described in the following Table 2, by taking N=6 and M≥4 as example.

Table 2

Bet combination type	Combination of playing cards	Explanation on bet combination	Odds
1. Four to six cards	3 KIND	Three cars with the same number plus three high cards (for example, 6♦, 6♥, 6♦, 7♠, A♠, J♥)	3:1
2. Five to six cards	FLUSH	Five cards in the same kind plus one high card (for example, 4♥, J♥, K♦, 7♥, 6♥, Q♥)	21:1
3. Five to six cards	FULL HOUSE	Three cards with the same number, two cards with the same number, plus one high card (for example, J♥, J♦, K♦, 2♠, 2♣, 2♦)	22:1
4. Five to six cards	STRAIGHT	Five cards with successive numbers but not in a same kind, plus one high	23:1
