CLAIMS

1. A composition for self-defense, comprising 0.5 to 20% w/v denatonium compound as bittering agent for defense against attacker, and a carrier selected from water, water-miscible solvent, poly vinyl pyrrolidone, poly vinyl pyridine, polyvinyl alcohol, or mixtures thereof; wherein said denatonium compound is selected from the group comprising denatonium chloride, denatonium citrate, denatonium saccharide, denatonium carbonate, denatonium acetate, denatonium benzoate, denatonium benzoate monohydrate and mixtures thereof, and wherein said carrier is used in an amount of 0.01 to 21 % w/v of the composition or in an amount of quantity sufficient (q.s.) w/v of the composition.
2. The composition as claimed in claim 1 wherein said bittering agent is selected from natural or synthetic bitterant.
3. The composition as claimed in claim 1 wherein said denatonium compound is denatonium benzoate.
4. The composition as claimed in claim 1 is in the form of liquid, paste, gel, cream formulation.
5. The composition as claimed in claim 4 wherein said liquid formulation is an aqueous or non-aqueous formulation, solution, suspension or emulsion.
6. An aqueous suspension comprising the composition as claimed in claim 1 for defense against human or animal attacker.
7. A spray comprising the composition as claimed in claim 6 for protection against attacker.
