Customer Order Management Modules/Functions

Modules	Functions
Customer PO	• Enter customer PO • Enter delivery schedule
Work Order	• Consolidate/Generate Work Order • Monitor work order status • Schedule processes
Capacity Check	• Check warehouse capacity
Equipment /Raw Materials Reservations	• Make reservations • View reservations • Update reservations
Settings

Fig. 9

Production Management

Modules/Functions

Modules	Functions
Growing Plan	• Generate growing plan • Generate CSV file • View storage locations
Harvest Plan	• Generate harvest plan • Generate CSV file
VIFS Warehouse Status	• View warehouse Status
Settings	

Fig. 10

Fig. 11

Materials/Equipment Inventory

Modules/Functions

Modules	Functions
Material items	• Enter new items • View existing items
Receive Materials	• Receive goods from supplier • Update inventory
Materials Request	• View existing requests • Update quests
Issue Materials	• Issue raw materials to request • Update inventory
Capacity Management	• Seeding Machine • Transfer Machine • Packers • Drivers/Vehicles
Settings

Fig. 14

Component 4: Delivery Management

Modules/Functions

Modules	Functions
Delivery Order	• Generate DO • Print DO • Acknowledge DO • Update Inventory
DO Assignment	• Assign DOs to drivers
Settings	

Fig. 15

Fig. 16

Climate Monitoring/Control

Modules/Functions

Modules	Functions
Climate Monitoring	• Monitor light • Monitor Temp • Monitor Humidity • Monitor CO2
Climate Control	• Control lighting • Control Fan
Analysis/Alert	• Set threshold values • Send email/sms to users when sensor values go beyond threshold
Settings	

Fig. 17

Indoor Farming R&D Management

Modules/Functions

Modules	Functions
Research Project	• Project initiation • Experiments • PLC
Research Execution	• Records
Research Results	• Records
Settings
