【Claims】

【Claim 1】

A mask sheet comprising:

a base layer impregnated with a wash-off type cosmetic composition; and

a blocking layer, which is laminated on one side of the base layer to prevent external water droplets from penetrating into the base layer,

wherein the base layer has a water content of 100% to 200%,

wherein the blocking layer is urethane-based resin,

wherein the blocking layer has an average pore diameter of 0.4 nm to 100 μm.

【Claim 2】

The mask sheet of Claim 1, wherein the base layer is a non-woven fabric, all-cotton fabric, woven fabric, paper, foam or sponge.

【Claim 3】

The mask sheet of Claim 1, wherein material of the base layer is at least one selected from the group consisting of viscose rayon, modal, lyocell, tencel, cupra, polyester, polypropylene, polyethylene terephthalate, nylon, cotton, linen, pulp and cellulose.

【Claim 4】

The mask sheet of Claim 1, wherein the base layer has a thickness of 20 μm to 2 mm.

【Claim 5】

The mask sheet of Claim 1, wherein the blocking layer has a thickness of 10 μm to 500 μm.

【Claim 6】

The mask sheet of Claim 1, wherein the lamination with two or more layers constituting the mask sheet is made by at least one adhesive selected from the group consisting of an acrylic adhesive, a rubber-type adhesive, a polyurethane adhesive, a polyester adhesive, a silicone adhesive and a hot-melt adhesive.

【Claim 7】

The mask sheet of Claim 1, wherein the viscosity of the wash-off type cosmetic composition is 5,000 cps to 200,000 cps.

【Claim 8】

The mask sheet of Claim 1, wherein the wash-off type cosmetic composition comprises at least one original ingredient selected from the group consisting of plants, tea leaves, petals, sugar and scrubbing agent; and

the original ingredient is contained in an amount of 0.001 wt% to 50 wt% based on the total wash-off type cosmetic composition.

【Claim 9】

The mask sheet of Claim 1, wherein the mask sheet further comprises a release film laminated on the outer surface of the base layer impregnated with the wash-off type cosmetic composition.

【Claim 10】

A preparation method of the mask sheet of Claim 1 comprising the following steps of:

S1) preparing a base layer;

S2) laminating a blocking layer on one side of the base layer; and

S3) spreading a wash-off type cosmetic composition on the other side of the base layer.

【Claim 11】

The preparation method of a mask sheet of Claim 10, wherein the wash-off type cosmetic composition comprises at least one original ingredient selected from the group consisting of plants, tea leaves, petals, sugar and scrubbing agent; and

the original ingredient is contained in an amount of 0.001 wt% to 50 wt% based on the total wash-off type cosmetic composition.

【Claim 12】

The preparation method of a mask sheet of Claim 10, which further comprises a step of laminating a release film on the

base layer so that one side of the release film coated with the wash-off type cosmetic composition and one side of the base layer face each other, between the S2) step and the S3) step.

【Claim 13】

The preparation method of a mask sheet of Claim 10, which further comprises a step of folding the mask sheet so that the wash-off type cosmetic composition is not exposed to the outside, after the S3) step.

【Claim 14】

A skin care method using the mask sheet of any one of Claim 1 to Claim 9, which comprises the following steps of:

applying the mask sheet to the skin;

removing the mask sheet after shower or bath; and

rinsing the skin to which the mask sheet was applied with water.
