

DIGITAL ELECTRONIC SECOND IDENTITY FOR VEHICLE**ABSTRACT**

5 A digital electronic second identity for a vehicle used to discourage criminal activities as it is displaying the vehicle registration plate in a more obvious and elevated position than the primary vehicle registration plate, making it easier for public to notice when the vehicle is involved in a process of criminal act. Moreover, it is also used to enhance safety in the operation of
10 the vehicle as it is activated when the vehicle is accelerating, decelerating, colliding, or swerving.
