CLAIMS

1. Use of collagen of the amino acid sequence of SEQ ID NO: 1 in the manufacture of a transdermally absorbable composition for anti-wrinkle, sebum control, skin restoration, skin-soothing, and/or anti-inflammation treatment.

2. The use according to claim 1, wherein the collagen is in the form of a trimer.

3. The use according to claim 1, wherein the composition is a composition for topical administration.

4. The use according to claim 1, wherein the composition is a pharmaceutical composition.

5. The use according to claim 4, wherein the composition comprises a pharmaceutically acceptable carrier.

6. The use according to claim 1, wherein the composition is a cosmetic composition.

7. The use according to claim 6, wherein the composition comprises a cosmetically acceptable carrier.

8. The use according to claim 6 or 7, wherein the composition is a composition for application to the face.

9. The use according to claim 1, wherein the composition is a solid, liquid, or gel composition.

10. The use according to claim 9, wherein the composition is in a solution dosage form, a lyophilized powder dosage form, a gel dosage form, a sponge dosage form, or a fiber dosage form.

11. The use according to claim 1, wherein the composition is a liquid formulation comprising the collagen of SEQ ID NO: 1 and a cosmetically acceptable carrier.

12. The use according to claim 11, wherein the carrier is a buffer.

13. The use according to claim 12, wherein the carrier is a D-PBS buffer or PBS buffer.

14. The use according to claim 1, wherein the composition is for reducing the level of the inflammatory cytokine TNF-α.
