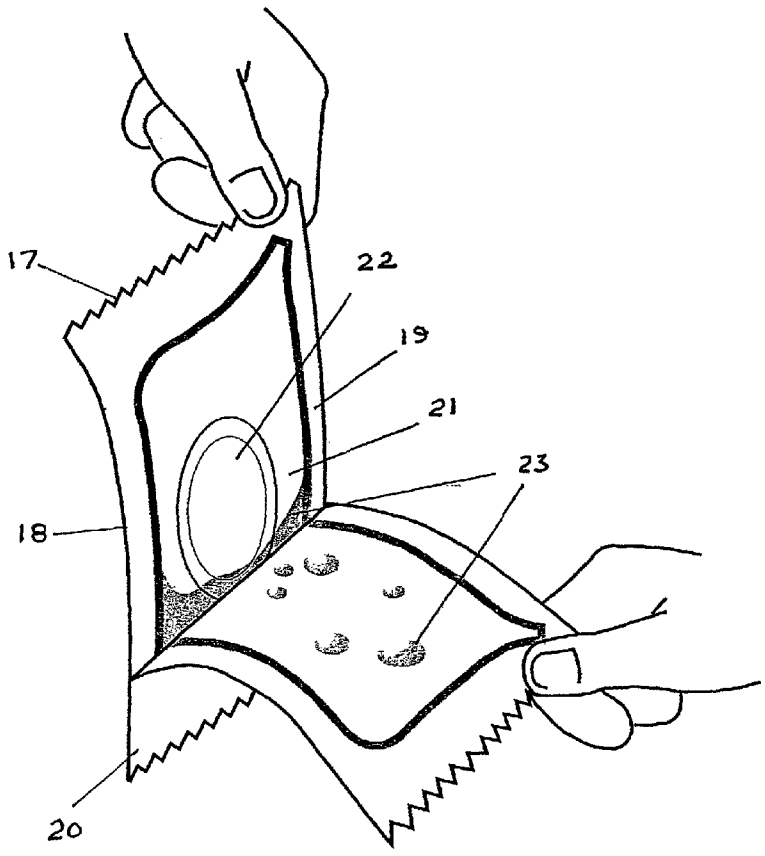
(54) Title: PACKAGING FOR DISPOSABLE SOFT CONTACT LENSES



(57) Abstract: A single use package capable of holding a contact lens (22) therein, the packaging comprising at least one barrier layer (16,17) of flexible/pliable package material forming at least first (16) and second (17) opposing surfaces which define an internal package space (21) in which the contact lens (22) is retained, a medium (23) in the space for maintaining lens hydration, and means for enabling release of said contact lens from said package, wherein said at least one barrier layer of material is capable of assuming a generally coplanar configuration and is/are not preformed.
