ABSTRACT OF THE DISCLOSURE

POLYMERIC ELECTRODE AND ELECTROLYTE ARTICLE OF MANUFACTURE

An article of manufacture is disclosed comprising an electrochemical cell having a positive electrode, an absorber-separator and a negative electrode wherein at least one of the electrodes or absorber-separator comprises a porous polyvinylidene fluoride. The porous polyvinylidene fluoride electrodes have an electrode material combined therewith, and the porous polyvinylidene fluoride absorber-separator has an electrolyte material combined therewith.

Figure 1 of the drawing should accompany the abstract when published.
