(54) Title: ENERGY SAVING DEVICE AND METHOD FOR COOLING AND HEATING APPARATUS

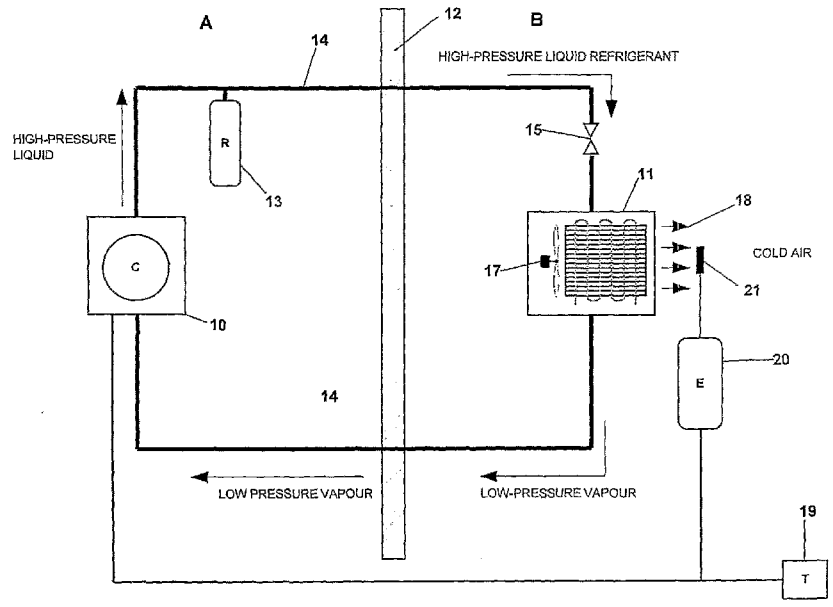

Figure 2

(57) Abstract: An energy saving device, a heating/cooling system and a method for controlling a heating/cooling system control the on/off state of an apparatus which is used for heating or cooling a working medium. A timer (24) has an adjustable timer value and provides a signal for controlling the on/off state of the apparatus. A temperature sensor (21) measures temperature of the working medium. A controller (20) adjusts the adjustable timer value in response to changes in temperature of the working medium.
