ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: MESH AND METHODS AND APPARATUS FOR FORMING AND USING MESH

(57) Abstract: A method of forming
a mesh by a moulding a link element
(5) around other link elements (1,
2, 3 and 4) to form a mesh in which
the interlinking link elements (5) are
formed as continuous unjoined loops
by a moulding process. An apparatus
for forming a mesh including a
plurality of first cavities (44a-e
and 45a-e) for accommodating first
link elements (1,2,3 and 4) and a
plurality of second cavities (46a-e
and 51a-d) for forming interlinking
link elements (5). The method and
apparatus allow the continuous
production of mesh formed of a
range of materials including plastics
materials.
