Claims

[Claim 1]

A hair cosmetic to be used by spraying, comprising the following components (A) and (B), with a content of the component (B) being 50% by mass or more:

(A) combination of the following components (A-1) and (A-2), wherein a mass ratio of the component (A-1) to the component (A-2), (A-1)/(A-2), is 0.01 or more and 5 or less;

(A-1) a non-associating copolymer comprising constituent units (a) and (b1) and having a neutralization degree of 50% or more and 90% or less:

(a) a constituent unit derived from a C_{3-5} unsaturated mono- or dicarboxylic acid,

(b1) at least one selected from a constituent unit derived from a C_{1-12} fatty acid vinyl ester or a C_{1-12} aliphatic vinyl ether,

(A-2) a non-associating copolymer selected from an acrylates copolymer, an (acrylates/hydroxyalkyl acrylates) copolymer, an (acrylates/alkyl(C1-2) succinates/hydroxyalkyl acrylates) copolymer and an acrylates/t-butylacrylamide copolymer and having a neutralization degree of 50% or more and 90% or less

(B) water.

[Claim 2]

The hair cosmetic according to claim 1, further comprising the following component (C):

(C) a plasticizer.

[Claim 3]

The hair cosmetic according to claim 2, wherein a mass ratio of the component (C) to the component (A), (C)/(A), is 0.01 or more and 1 or less.

[Claim 4]

The hair cosmetic according to claim 2 or 3, wherein the component (C) is selected from nonionic surfactants liquid at 25°C and polyhydric alcohols liquid at 25°C.

[Claim 5]

The hair cosmetic according to any one of claims 1 to 4, wherein a content of the following component (D) is 10 % by mass or less:

(D) a monohydric alcohol having 1 to 4 carbon atoms.

[Claim 6]

The hair cosmetic according to claim 5, wherein a mass ratio of the component (D) to the component (B), (D)/(B), is 0 or more and 0.1 or less.

[Claim 7]

The hair cosmetic according to any one of claims 1 to 6, having a transparent appearance.

[Claim 8]

The hair cosmetic according to any one of claims 1 to 7, being a non-aerosol type.
