(54) **Title:** PURIFICATION METHOD AND USES THEREOF

FIG. 1

(57) **Abstract:** A cyclic chromatographic purification method for the isolation of a product (P) from a feed mixture (F) consisting of the product (P) and at least two further components representing weakly adsorbing impurities (W) and strongly adsorbing impurities (S), the method using only two chromatographic adsorber sections as chromatographic stationary phase, wherein the method comprises at least one base sequence having at least one Recycling Phase followed by only one Purification Phase, wherein preferably base sequences repeat in a cyclic manner.
