Jordan Gateway #150, South Jordan, UT 84095 (US). **SUN, Karl**; c/o Lucid Software, Inc., 10355

(54) Title: ONLINE COLLABORATION PLATFORM

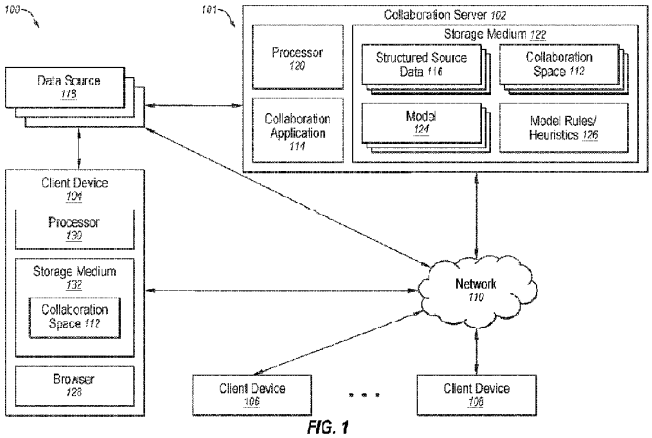

FIG. 1

(57) Abstract: An example method to facilitate online collaboration includes granting access to a collaboration space to multiple client devices, each associated with a corresponding one of multiple users, the multiple users including a first user and a second user. The method includes receiving input from the first user to create a first set of graphical objects in the collaboration space. The method includes receiving input from the second user to create a second set of graphical objects in the collaboration space. The method includes applying different visual attributes to graphical objects authored by different users to visually identify an author or creator of each graphical object such that all graphical objects of the first set of graphical objects have a first visual attribute and all graphical objects of the second set of graphical objects have a second visual attribute that is different than the first visual attribute.
