CLAIMS

1. A skin care composition comprising:

(a) a *Sapindus mukorossi* extract in an amount from about 0.001 % to about 0.5% by weight of said composition;

(b) allantoin in an amount from about 0.05% to about 1% by weight of said composition; and

(c) carnosine in an amount from about 0.1 % to about 2% by weight of said composition.

2. The composition of claim 1, wherein said composition further comprises a plant extract blend in an amount from about 0.1 % to about 10% by weight of said composition, wherein said plant extract blend comprises a bioflavonoid, a *Brassica oleracea ver. italica* extract, and an *Aloe barbadensis* leaf extract.

3. The composition of claim 1, wherein said composition is a topical skin care formulation.

4. The composition of claim 1, wherein said composition is formulated as a lotion.

5. The composition of claim 1, wherein said composition is formulated as a cleanser.

6. The composition of claim 1, wherein said composition is formulated as a toner.

7. A skin care composition comprising:

(a) a *Sapindus mukorossi* extract in an amount from about 0.001% to about 0.5% by weight of said composition;

(b) allantoin in an amount from about 0.05% to about 1% by weight of said composition;

(c) a plankton extract in an amount from about 0.1 % to about 5% by weight of said composition; and

(d) carnosine in an amount from about 0.1 % to about 2% by weight of said composition.

8. The composition of claim 7, wherein said composition further comprises a plant extract blend in an amount from about 0.1 % to about 10% by weight of said composition, wherein said plant

extract blend comprises a bioflavonoid, a *Brassica oleracea ver. italica* extract, and an *Aloe barbadensis* leaf extract.

9. The composition of claim 7, wherein said composition is a topical skin care formulation.

10. The composition of claim 7, wherein said composition is formulated as a lotion.

11. The composition of claim 7, wherein said composition is formulated as a cleanser.

12. The composition of claim 7, wherein said composition is formulated as a toner.
