2000
2010
Move an aliquot of first reagent fluid into a fluidic device
2015
Move a volume of fluid buffer into the fluidic device
2020
Move at least a portion of the volume of fluid buffer moved in step 2015 into a first fluid buffer reservoir
2025
Move an aliquot of second regent fluid into the fluidic device
2030
Move a volume of fluid buffer into the fluidic device
2035
Move at least a portion of the volume of fluid buffer moved in step 2030 into a second fluid buffer reservoir
2040
Move an aliquot of first reagent fluid into the fluidic device
2045
Move a volume of fluid buffer into the fluidic device, wherein at least a portion of the volume of fluid buffer moved in step 2045 is moved from the first fluid buffer reservoir
2050
Move an aliquot of the second reagant fluid into the fluidic device
2055
Move a volume of fluid buffer into the fluidic device, wherein at least a portion of the volume of fluid buffer moved in step 2055 is moved from the second fluid buffer reservoir
