(54) Title: METHODS OF MANAGEMENT OF ATTENTION DISORDERS

(57) Abstract: The present disclosure provides methods for any one of treating a subject having attention disorder, for selecting a location of a correction coordinate in a device including at least one lens, the correction coordinate lies in the field of view of a subject, when the subject wears the device; or for converting an eyeglass into a device for improving performance of subject having an attention disorder. The methods involve placing a correcting element on a location on the at least one lens, the location of the correction element being within a defined correction region having a shape of two dimensional double arc.
