System, Device, or Equipment
170

FIG. 2

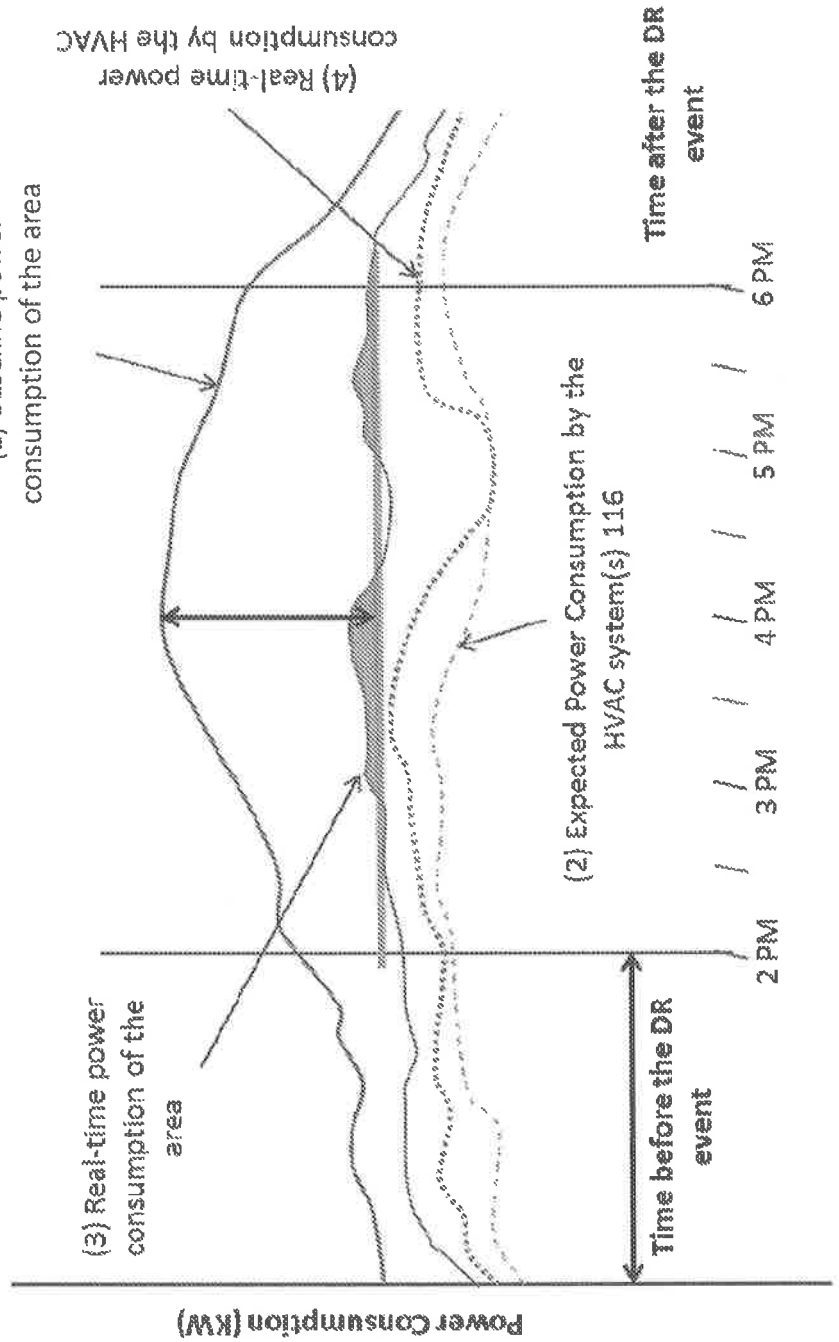

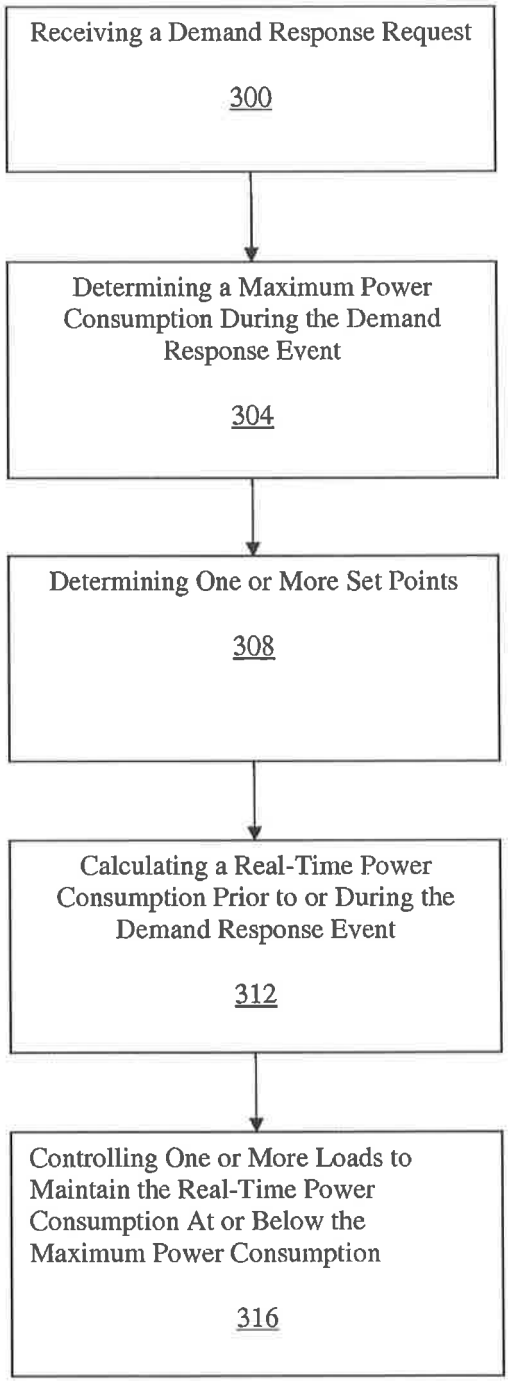

Power Consumption (KW)
(1) Baseline power consumption of the area
(2) Expected Power Consumption by the HVAC system(s) 116
(3) Real-time power consumption of the area
(4) Real-time power consumption by the HVAC
Time before the DR event
Time after the DR event
2 PM
3 PM
4 PM
5 PM
6 PM

FIG. 3

Receiving a Demand Response Request
300
Determining a Maximum Power Consumption During the Demand Response Event
304
Determining One or More Set Points
308
Calculating a Real-Time Power Consumption Prior to or During the Demand Response Event
312
Controlling One or More Loads to Maintain the Real-Time Power Consumption At or Below the Maximum Power Consumption
316
