

ABSTRACT

A composite sheet for forming a protective film of the invention is a composite sheet (3) for forming a protective film including a support sheet (4) and a protective film-forming film (1) which is laminated on the first surface side of the support sheet (4),
5 in which an arithmetic mean roughness (Ra1) of a second surface of the support sheet (4) is 0.2 μm or greater, and an arithmetic mean roughness (Ra2) of the second surface of the support sheet (4) after the support sheet (4) is heated for 2 hours at 130°C is 0.25 μm or less.
