

ABSTRACT

VINYL ESTER RESIN COMPOSITION, COMPOSITE MATERIAL CONTAINING SAID COMPOSITION, AND CURED PRODUCT OF SAID COMPOSITION OR COMPOSITE MATERIAL

Provided is a vinyl ester resin composition capable of preventing or reducing discoloration of the same over time. The vinyl ester resin composition according to the present disclosure contains a vinyl ester resin (A), a 1,4-benzenediol analog (B), and an oxoacid (C), wherein the oxoacid (C) does not include ethylenically unsaturated compounds and 2-oxocarboxylic acids.
