(54) Title: EQUITY INCENTIVE DATA PROCESSING METHOD AND APPARATUS, ELECTRONIC DEVICE AND STORAGE MEDIUM

(54) 发明名称: 股权激励数据处理方法、装置、电子设备及存储介质

[图 1]

S101 In response to receiving a resource conversion request of a first terminal device, acquire initial equity incentive data of a target individual

S102 Acquire conversion information corresponding to the resource conversion request, and, on the basis of the conversion information, convert initial option grant shares and initial total option vesting shares under different vesting statuses, so as to obtain target option grant shares and target total option vesting shares under the different vesting statuses

S103 For any target vesting status among the different vesting statuses, on the basis of the target total option vesting shares under the target vesting status, initial option vesting sub-shares of different vesting tranches, and the conversion information, determine target option vesting sub-shares of the different vesting tranches

S104 Send the target option grant shares and the target option vesting sub-shares of each vesting tranche under the different vesting statuses as target equity incentive data to the first terminal device, so that the first terminal device updates the initial equity incentive data on the basis of the target equity incentive data

(57) Abstract: Disclosed in the present application are an equity incentive data processing method and apparatus, an electronic device and a storage medium. The method comprises: in response to a resource conversion request, acquiring initial equity incentive data of a target individual; on the basis of acquired conversion information, converting initial option grant shares and initial total option vesting shares under different vesting statuses, so as to obtain target option grant shares and target total option vesting shares; on the basis of the target total option vesting shares, initial option vesting sub-shares and the conversion information, determining target option vesting sub-shares; and sending the target option grant shares and the target option vesting sub-shares of each vesting tranche as target equity incentive data to a first terminal device, so that the first terminal device updates the initial equity incentive data on the basis of the target

equity incentive data. The technical solution provided in the present application improves the efficiency of adjusting equity incentive data, and improves the reliability of adjusted equity incentive data.

(57) 摘要: 本申请公开了一种股权激励数据处理方法、装置、电子设备及存储介质, 方法包括: 响应于资源转化请求, 获取目标对象的初始股权激励数据; 基于获取的转化信息, 对初始期权授予份额以及不同归属状态下的初始期权归属总份额进行转换, 得到目标期权授予份额、目标期权归属总份额; 基于目标期权归属总份额、初始期权归属子份额以及转化信息, 确定目标期权归属子份额; 将目标期权授予份额和各归属批次的目标期权归属子份额, 作为目标股权激励数据发送至第一终端设备, 以使第一终端设备基于目标股权激励数据对初始股权激励数据进行更新。本申请提供的技术方案, 提高了股权激励数据的调整效率, 且提高了调整后的股权激励数据的可靠性。
