(54) Title: AN OPTICAL CABLE ASSEMBLY, AN OPTICAL MODULE, AND A METHOD FOR MOUNTING AN OPTICAL CABLE ASSEMBLY TO AN OPTICAL MODULE

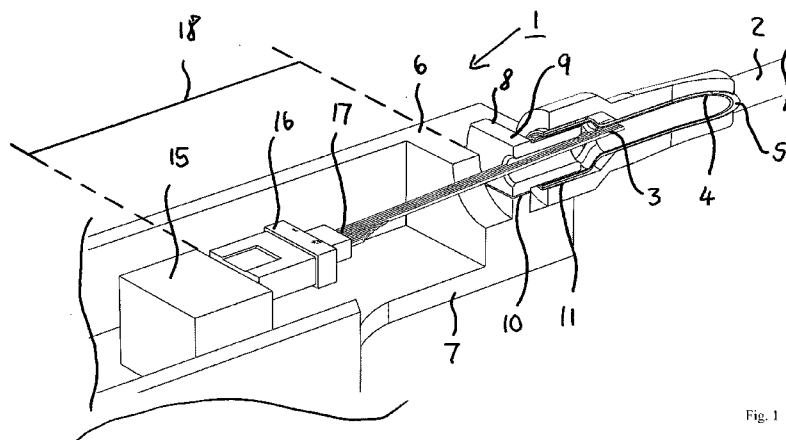

Fig. 1

(57) Abstract: An optical cable assembly (1) is provided, comprising: an optical cable (2) provided with one or more optical fibers (3), a strain-relieve device (8) mounted on the optical cable (2) and configured to provide a strain relieve when the optical cable (2) is fed into an optical module (7) through an opening in a housing (6) of the optical module, wherein the strain-relieve device (8) is provided with an adjustment mechanism configured to adjust a distance between an end portion of the one or more optical fibers (3) and the strain-relieve device (8). Furthermore, an optical module and a method for assembling an optical cable assembly are provided.
