(54) Title: SYSTEM AND METHOD FOR DETECTING ROAD TRAFFIC VIOLATIONS

(57) Abstract: A vehicle detection method and system for detecting traffic violations is disclosed which has two camera systems (14 and 16) spaced apart from one another. Each system includes multiple cameras (14a, 14b and 16a, 16b) for monitoring the lanes of the roadway. Vehicles are detected by the camera systems (14, 16) and the lanes in which the vehicles are travelling and/or the order of the vehicles is determined by image analysis to identify the vehicles so that illegal lane changes or illegal overtaking can be determined.
