(54) Title: COMPOUNDS AND THEIR USE

(57) Abstract: The present invention relates to peptides and their use in the treatment of microbial infections, in particular bacterial infections. In particular, the invention relates to peptides wherein at least 75% of the amino acids of the peptide are arginine and phenylalanine amino acids, at least 50% of the amino acids being arginine amino acids and at least 15% of the amino acids being phenylalanine amino acids.
