(54) Title: A MEDICAMENT AGAINST INFERTILITY AND FOR INCREASING FERTILITY

(57) Abstract

The present investigation relates to the use of a local anesthetic for the manufacture of a medicament for use against infertility or for increasing fertility. It also relates to a pharmaceutical composition comprising a pharmaceutically effective dose of a local anesthetic together with a pharmaceutically acceptable excipient. It also relates to a process for increasing fertility in a woman with said pharmaceutical composition.
