

ABSTRACT

POROUS POLYETHER SULFONE FILM AND PRODUCTION METHOD THEREFOR

5 Provided are: a porous polyether sulfone film having macrovoids and having excellent
dimensional stability; and a production method therefor. Provided is a porous polyether sulfone
film having a surface layer (a), a surface layer (b), and a macrovoid layer interposed between the
surface layer (a) and the surface layer (b). The macrovoid layer has a partition wall joined to the
surface layers (a) and (b) and a plurality of macrovoids surrounded by the partition wall and the
10 surface layers (a) and (b). The surface layer (a) and the surface layer (b) have pores connected to
the macrovoids.
