CLAIMS

1. A plastisol comprising:

a vinyl chloride resin; and

a plasticizing agent,

wherein the plasticizing agent is a mixture of from 95% to 100% by weight of dicyclohexyl methylglutarate, and from 0% to 5% by weight of dicyclohexyl 2-ethylsuccinate, and

wherein the plastisol is in the form of a paste, film, or foam.

2. The plastisol of claim 1, wherein the plastisol additionally comprises one or more compounds selected from stabilizers, fillers, pigments, biocides, carbon black, adhesion promoters, viscosity reducers, thixotropic agents, thickening agents, blowing agents, dispersants and other additives.

3. The plastisol of claim 1, wherein the plasticizing agent additionally comprises one or more compounds selected from phthalate, adipate, benzoate, triglyceride and other polymers.

4. The plastisol of claim 1, wherein the plastisol is an adhesive or an ink.
