(54) **Title:** SYSTEM FOR AND METHOD OF TRANSMITTING COMMUNICATION INFORMATION

(57) **Abstract:** A system for and method of communication information transmission are provided. A method of communication information transmission performed by a first device includes: receiving a communication request from a second device; obtaining surrounding situation information of the first device, the surrounding situation information including information related to surroundings of the first device; and determining at least one third device to process the communication request based on the surrounding situation information.
