

ABSTRACT

There is provided a labeling precursor compound represented by the general formula (2):

5 wherein S represents a substrate, L represents a straight
alkyl group having 1 to 6 carbon atoms which may contain an
ether group, R¹ and R² each independently represent a
straight or branched alkyl group having 1 to 30 carbon
atoms, or a substituted or unsubstituted monocyclic or
10 condensed polycyclic aryl group, R³ each independently
represent an alkyl group having 1 to 4 carbon atoms or an
alkoxy group having 1 to 4 carbon atoms, and p represents
an integer of 0 to 4.
