suitable compounds for preparation of the compounds shown in Formula (II-2) and Formula (II-3). The Nα- Fmoc-Nε-Boc-L-lysine reacting with the compound 4 in Example 1 was substituted with Boc-glycine for preparation of the compounds shown in Formula (II-4) to Formula (II-6), or the PSMA-617 reacting with the compound 7 in Example 1 was substituted with PSMA-617-(Fmoc)Lys- to obtain corresponding structures as follows:

Formula (II-2),

Formula (II-3),

Formula (II-4),
