(54) Title: MAINTENANCE UNIT FOR PRINT HEAD

FIG. 2

(57) Abstract: The present invention generally relates to a printing apparatus including one or more print heads (101) for depositing printing fluid onto a substrate, wherein the apparatus comprises a maintenance unit (102, 103) for the one or more print heads. The present invention further relates to a method for cleaning one or more print heads from adhering printing fluid. The present invention also relates to the use of said apparatus in the automated manufacture of a contact lens, in particular a silicone hydrogel contact lens.
