(54) Title: INSTITUTION SIMULATION

(57) Abstract: A calibrated and tested dynamic simulation model of at least one municipality or institution or commercial entity is operated to generate information that enables the municipality or institution or commercial entity and suppliers of products for development projects of the municipality or institution or commercial entity to engage in execution of development projects that the model demonstrates will enhance the performance and sustainability of the municipality or institution or commercial entity. The simulation model of the municipality or institution or commercial entity is used to monitor and influence the execution of the development projects or ongoing operations and policies of the municipality or institution or commercial entity. Financers of the development projects are provided with information from operation of the dynamic simulation model demonstrating the performance and sustainability of the municipality or institution or commercial entity and the acceptability of risks associated with the financing of the projects or operations
